

## Life Coaches- Addressing Barriers

- One of the main roles that you'll do as a life coach is helping students overcome barriers to their success and further education.
- Each student fills out a "Barriers" section during registration to notify life coaches of issues that might prevent them from reaching their goals. When they complete this online form, the barriers are stored on the back end of the portal and automatically added to The Vault. You will be assigned course numbers that correspond to the classes you serve.,
- It is each life coach's role to reach out to the students that are attending class during your scheduled work time and address those barriers.
- This is the barrier form:
